

Horizon Bank Presents: **Technology on a Shoestring**

Learn how to maximize your technology ROI

Featured Speaker:
Dave Ferguson

Dave is co-founder of Click Engineering Inc., a technology consulting firm dedicated to helping businesses employ computer technology. He has over 25 years of industry experience, thirteen of which he worked at Microsoft as a developer on various products, including Microsoft Office and Microsoft Windows. Click Engineering Inc. is a Microsoft Certified Partner and Microsoft Small Business Specialist; Dave is a Microsoft Certified Professional.

Brought to you by:

www.horizonbank.com

Join Horizon Bank and your fellow small business owners for another engaging and informative discussion: **Technology on a Shoestring**. You'll learn about the latest in security and data protection for your system, as well as find out how to more wisely and effectively navigate social media resources. Plus, you'll discover free or inexpensive tools that can provide significant efficiency or market differentiation for your business. This complimentary seminar will be held at two locations.
